EDUCATION
Bachelor of Engineering
Electronics and Communication VTU, Bangalore - 2016

CORE COMPETENCIES
- Client Engagement
- Data Warehousing
- Problem-Solving
- Communication
- Team Leadership
- Gap Analysis

SKILLS & TOOLS
- SQL
- Snowflake
- AWS - EC2, EMR, Redshift, S3
- DBT (Data Build Tool)
- Azure
- Python
- SQL Server
- ETL Tools – InData, Informatica, REVO
- NoSQL – MongoDB, Elastic Search
- Microsoft Office – Excel, Word, PowerPoint
- Service Now
- Unix Shell Scripting
- Informatica PowerCenter
- Postgres-SQL
- Presto
- Confluence

CERTIFICATIONS
- AWS Certified Cloud Practitioner
- Value Based Care
- DBT Fundamentals
- Modern Big Data Analysis with SQL Specialization (Coursera)

SUMMARY

8+ years of experience in interpreting and analyzing data for driving business solutions. Excellent problem-solving and communication skills. Proven ability to work effectively both independently and in team environments. Proficient knowledge and experience in leading the implementation of Cloud based Data Warehousing solutions for banking, pharmaceutical and healthcare clients.

WORK EXPERIENCE

Innovaccer, Pune: Lead Data Analyst (Aug 2021 – Present)
- Leading and managing a team of 8 data analysts to implement population health management solutions for multiple US clients, providing guidance and support.
- Coaching team on delivering best practices with additional focus on quality, which has been a sore point for all client delivery previously.
- Designed & developed data warehousing solutions on Snowflake and Azure Cloud based Data Warehouse platforms.
- Created and optimized ETL pipelines to ensure data accuracy and consistency.
- Performed data quality assessments and implemented data transformation processes.
- Communicated findings and recommendations to non-technical stakeholders and led the client meetings on a day-to-day basis.
- Analyzed large amounts of data to identify trends and find patterns, signals, and hidden stories within data.
- Performed root-cause analysis on data-related system problems to recommend or execute corrective action.
- Expertise in analyzing and integrating Clinical, Professional & Institutional Claims and ADT.
- Proficient in Risk/CDI for CMS along with Claims cost analytics for clients in US healthcare.

ZS Associates, Pune: Associate Consultant (May 2018 – Aug 2021)
- Responsible for requirement gathering and finalization of technical and functional specifications.
- Designed, developed, and tested the AWS Cloud based process thereby successfully deploying the reports to production.
- Developed solution provides business insights on Sales, Events, Marketing Email Campaigns and Website Analytics.
- Provided an end-to-end solution with great quality and high stakeholders satisfaction.
- Conducted performance tuning and optimization for database queries and ETL processes.
- Collaborated with data engineering teams to troubleshoot and resolve data-related issues.
- Worked on AWS Cloud based Data Warehouse implementation to develop Field, HQ and Marketing reports for US, APAC, and Latin America stakeholders.
- Led 2 different Data Warehouse teams with 3 members each for developing the ETL pipelines and reports.

Cognizant, Pune: Programmer Data Analyst (Sept 2016 – May 2018)
- Worked with the team to gather the requirements and business logic required for developing the data warehousing pipelines.
- Extracted, transformed, and loaded data from various sources into data warehouses using Informatica PowerCenter tool for Investment Banking client.
- Created and updated data models and schemas for efficient data retrieval and analysis.
- Assisted in the creation of custom data visualization tools using BI tools.
- Implemented Longview which is Investment Banking Tool for the client
- Worked on Report Automation, Batch Optimization, and Database ObjectMigration.
